**FROWNS**

Are Being Given the Smoke Nuisance by Baltimore and Ohio Railroad.

GRAFTON, Nov. 5—The smoke

nuisance is being solved in a unique manner by the Baltimore and Ohio railroad for the benefit of its patrons.

The hod, stogie, two-for, makin's, plug and other forms in which the god Nicotine is prepared for worshiping are placed under the ban by a circular which has been issued to station employees and others who come in the contact with the public in the performance of duty, calling

attention to the negligence of using the weed during working hours.

It is not the intention of the railroad to infringe upon personal privilege when employees are enjoying the comforts of the fire-side or other recreation nor will an effort be made to prevent railroad men from using tobacco when off duty; but it is believed by the management that a man using tobacco while at work renders inferior service, to say the least, and aside from the time lost in "lighting up" there is a certain class of people to whom exhaled tobacco smoke is objectionable.

In large stations and behind ticket counters the employees are required to refrain from using tobacco and the same is also true of passenger trainmen so the order is of greatest concern to station agency employees and clerks during office hours. The circular is an appeal to personal pride rather than mandatory, although hereafter fewer puffs and chews will be taken during working hours by the men who represent the Baltimore and Ohio in its transactions with patrons.

Since Alaska was bought by the United States government the revenue from the seal islands alone has been more than twice the sum paid for the territory.

The oldest bridge in Maine will soon be replaced by a new one. It is in Jay, and was built in 1847.

**Good Session at Springs.**  
MINNEHAHA SPRINGS, W. Va., Nov. 5—The week at the club has been a very busy one. A number of members have arrived and will remain for the hunting season, while quite a number who were here for the summer season will return. Deer chasing will be engaged in at different times this month.

The hunting is exceptionally good and very interesting. The hunters are enjoying automobile trips out into the surrounding country, and hunting at the same time. Large numbers of pheasants, quail and rabbits have been brought in. The game this week has formed an important part of the menu.

While some enjoy going farther out into the country, the hunting is equally as good close to the club so that the ladies have also taken part in the hunting. Several turkeys have been killed in the immediate vicinity.

**Miss Shakespeare Entertains.**

Beautiful in all its appointments was the entertainment given by Miss Rosie Shakespeare in her home on East Pike street Wednesday evening to the employees of the local plant of the Bell Telephone Company and a few other friends in honor of Mr. and Mrs. Clarence Griffin. Mrs. Griffin was formerly Miss Elizabeth Parks, a popular Bell operator. All departments of the local plant were well represented and the gathering was a jovial one.

The color scheme of yellow and white was carried out, chrysanthemums and similar being used in the decorations. From a chandelier over the table, from which dainty refreshments were served, hung a big, blue bell. The place cards were hand painted and were very beautiful. The guests were given ribbon souvenirs on which was the picture of a telephone.

The crowd was delightfully entertained by solos by Misses Hattie Peck and May Vandervort, while Miss Bertha Shakespeare rendered a number of instrumental selections in a most delightful manner.

It was a late hour when the jovial gathering dispersed all voting Miss Shakespeare a delightful hostess, and Mr. and Mrs. Griffin charming guests of honor.
